

Flexstone Training Program

Register to Become a Certified Flexstone Ontario Installer

The *only*, hands-on training in the industry! Come and learn how to install Flexstone floors with the most knowledgeable applicators in Eastern Canada. We offer the only private training sessions, and we train installing in residential areas, *plus in a classroom / warehouse*.

- Two to Three-Day Installation with Next-Day Return to Service
- Flexible, moves with substrate without cracking, chemical and salt resistant
- Low Temperature Application (2 degrees cel.)
- 100% UV stable with no additional coating for years to come
- Urethane top coat protection
- Foot traffic in just 48hrs

Our three day certification training course covers all aspects of deck and flooring installations. Attendees will learn proper wood and concrete prep and application of our Flexstone coatings. The way to price jobs for standard and textured finishes

The course is taught by some of Eastern Canada's most experienced installers of Flexstone coatings. We can offer weekend training courses, so you can fit training around your busy schedule. All training is held in Fort Erie, Ontario.

Our training is structured to achieve the following goals:

- To gain an understanding of the unique qualities of our products
- To learn proper deck and concrete preparation and installation techniques
- Give you the confidence, techniques and needed to install a perfect floor your very first attempt!
